

Travel guide in Xi'an

The Mausoleum Museum of the Qin Emperor

Introduction:

The Mausoleum Museum of the Qin Emperor is based on the Mausoleum Site Park (Lishan Garden). It is also a public cultural space with the Mausoleum and its numerous burial pits, based on the protection and display of archaeological sites, including education, scientific research, sightseeing and leisure.

In 2007, the Mausoleum Museum of Qin was awarded one of the first national AAAAA tourist attractions, including the Terracotta Warriors and Horses Museum and the Lishan Garden. The two attractions are 2,200 meters apart, and visitors can take a free travel bus. In 2008, the Shihuang Terracotta Warriors and Horses Museum was awarded as one of the first national first-class museums. In 2009, the Shihuang Terracotta Warriors and Horses Museum obtained the qualification of a group archaeological leader.

The Daming Palace National Heritage Park**Introduction:**

The Daming Palace National Heritage Park is a world cultural heritage site and a national key cultural relic protection unit. Located in Taihua South Road, Xi 'an city, Shaanxi Province, Daming Palace is located on the Longshou Yuan in the north of Chang' an City. It was first built in the eighth year of Zhenguan of Emperor Taizong (634), with a slightly trapezoidal shape in plane.

Daming Palace is the most magnificent palace complex in the Tang Empire, and also the largest palace complex in the world at that time. It is the national symbol of the Tang Dynasty. Daming Palace was first built in the eighth year of Zhenguan of Emperor Taizong and destroyed in the late Tang Dynasty, covering an area of 3.2 square kilometers.

The Daming Palace Site is one of the first national key cultural relics protection units announced by The State Council in 1961. It is a major site protection project of world significance determined by the International Council of Ancient Sites and an important part of the Silk Road's overall application for World cultural heritage. Daming Palace National Site Park is a key project of Xi 'an urban construction, large site protection and improvement of people's livelihood. Xi 'an's "Urban Central Park" makes the Daming Palace ruins area become an urban growth pole that drives Xi 'an's first development, balanced development and scientific development. It has even become the ecological foundation and the most important cultural symbol of Xi 'an's future urban development, and has become an important support for the ancient capital of world civilization, further enhancing the urban characteristics of Xi'an.

Shaanxi History Museum

Introduction:

Shaanxi History Museum, located in the northwest of the Big Wild Goose Pagoda in Xi 'an, was established in 1983 and opened on June 20,1991. It is the first large-scale modern national museum in China. Its completion marks a new development milestone for China's museums.

Its primary and secondary priorities are orderly, high and low scattered, vigorous and

solemn momentum, integrating national traditions, local characteristics and the spirit of The Times. The museum area covers an area of 65,000 square meters. The construction area is 55,600 square meters, the cultural relic reservoir area is 8,000 square meters, and the exhibition hall area is 11,000 square meters. The collection contains more than 370,000 cultural relics, including the simple stone tools used in the initial stage of ancient humans, and all kinds of artifacts in social life before 1840 years, covering a time span of more than one million years.

Cultural relics are not only numerous and varied, but also of high grade and wide value. The Shang and Zhou bronze wares are exquisite, the terracotta figures in various dynasties, and the gold and silver murals in the Tang Dynasty are unparalleled in the world.

The Huaqing Palace

Introduction:

The Huaqing Palace, later known as the "Huaqing Pool", includes the former Lishan Mountain National Forest Park, which is known as the Summer Palace, Yuanmingyuan Palace and the Chengde Summer Resort.

Huaqing Palace is a farewell palace for the feudal emperors of the Tang Dynasty. It is located in Lintong District, Xi'an city, Shaanxi Province, near Lishan Mountain in the south and Weishui river in the north, adjacent to the Terracotta Warriors and Horses, which is the "eighth miracle of the world".

Huaqing Palace is one of the first national 5A level tourist attractions, a national key scenic spot, a national key cultural relic protection unit, a national cultural industry demonstration base, and a national geological and forest park. The emperors of Zhou, Qin, Han, Sui, Tang and other dynasties built separate palaces here. It is famous at home and abroad for its eternal hot spring resources, the historical allusions of the beacon, the love story of Emperor Tang Minghuang and Princess Yang Guifei, and the place of the "Xi'an Incident". It has become a landmark scenic spot of the Tang Palace in China.
